Pearl Village

Set in 35 acres of landscaped tropical gardens facing the beach at Nai Yang National Park, Pearl Village affords a unique style of luxury. True to its name, it is completely self-contained, a resort that is a village enjoying the seclusion of unspoilt natural surroundings.

Deluxe accommodation is provided by 226 units tastefully furnished with every modern amenity for convenience and comfort. To ensure a welcome air of privacy while also affording easy access to a full range of facilities, the design concept of Pearl Village focuses on a central clubhouse of splendid proportions. Here are located those essential dimensions of wining, dining and entertainment to parallel the pleasures of nature.

There are superb restaurants serving Thai and international specialities, a choice of cosy bars for sipping a long, cool drink while relaxing amid tropical ease, and, in the evening, live music to fill after-dark hours with as much fun as the day. Among additional facilities are barbecue corner, games room and a conference room accommodating up to 200 people, theatre style, ideal for mixing business with pleasure.

Park & Beach

In keeping with the dual attractions of its stunning location at Nai Yang National Park, Pearl Village offers an enormous range of sporting and recreational facilities that take full advantage of both beach and parkland.

Year-round activities centred on the sea cover a wide variety of water-sports including boating, windsurfing, snorkelling and scuba diving. Quality modern equipment and expert supervision are available, especially for scuba diving which will introduce guests to the secret wonderland of fascinating coral beds for which the sea off Nai Yang is famous.

On land the recreational opportunities are no less extensive with facilities for horse riding

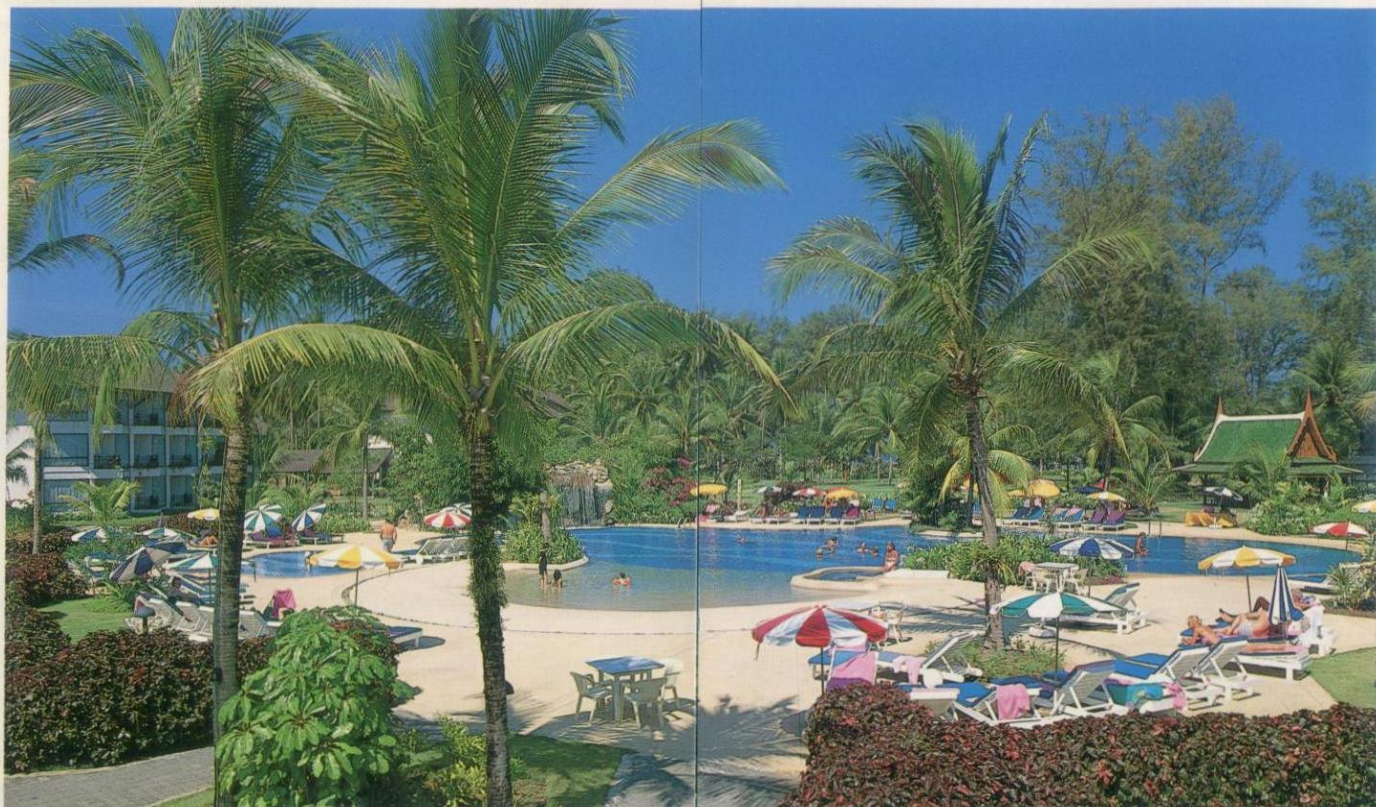

and bicycle riding in the park, tennis and pitch & putting green. Additionally there is a children's playground, and kiddies corner sure to keep youngsters happy for hours, and a fresh water swimming pool within a natural setting of enchanting beauty.

As if this variety of activities were not sufficient, guests will also appreciate the convenience of a regular transport service to our sister property, the Pearl Hotel, in Phuket town. This is the ideal starting point for shopping excursions and for exploring the historic little heart of the island.

Truly, Pearl Village puts all of Phuket's wonders at your finger tips.

The Deluxe Beach Resort in a National Forest

Phuket, Thailand's southern paradise island, has long been famed for its unparalleled natural beauty.

Bathed by the clear blue waters of the Andaman Sea and warmed by the brilliance of a tropical sun are expanses of silver-white sand, beaches that rank among the world's finest. Behind is a magnificent backdrop of lush greenery, a profusion of vegetation which provides a perfect and refreshing complement to the delights of sun, sea and sand.

The enjoyment of these twin glories of nature has in the past been largely a matter of separate pleasures. You either laze on the beach soaking up an enviable tan, or travel inland to discover the wonders of forest and parkland. Now, with the development of Pearl Village you have all the natural attractions of Phuket placed at your finger tips for the complete island experience.

Pearl Village is a fully developed resort hotel of international standard. Beautifully sited at Nai Yang Beach and within Nai Yang National Park, it is unique among the island's resorts in its unrivalled combination of beach and parkland.
